11. You must create and retain the Records.
12. You must provide Sales Reports to the LDB.
13. You must retain the Records, Sales Reports and Excise Documents for a period of six years.
14. Should your Licensed Establishment's prior calendar year's Annual Production of Product or the combined Annual Production of all Licensed Establishments under common ownership or management exceed 50,000 litres but be less than 100,001 litres, then your Licensed Establishment will be deemed a "Transitional Craft Distillery" and in the immediately following LDB fiscal year, you must collect full mark-up on the sale of Product to Wholesale Customers, your Manufacturer On-site Store and Hospitality Customers and remit such amounts to the LDB, all in the manner specified in the transitioning rates as set out in Appendix D. Product, you will be charged mark-up for such Lost Product. The mark-up charged will be based on the Lost Product being treated as having been sold to you at the LDB Established Retail Price. In addition you will be charged for the container deposits, container recycling fees and applicable taxes associated with the Lost Product. Such amounts may be collected by the LDB by way of set off from any amounts the LDB owes you, howsoever arising or as otherwise agreed by the parties.

Information

24. You and the LDB will have access to and receive information about each other and others including information about sales to customers. Appendix A

Craft Distillery - Reporting Requirements and Procedures

1. Introduction

The purpose of this Appendix A is to describe the Reporting Requirements and Procedures of the LDB with regard to operating a Craft Distillery in British Columbia.

The definitions in the Agreement will apply to this Appendix A unless indicated otherwise.

Any questions regarding the information in this Appendix A should be directed to:

Liquor Distribution Branch
Finance Department, Data Management
2625 Rupert Street
Vancouver, BC
V5M 3T5

Or by Email: ldbdatam@bcldb.com
Phone: 604-252-3170

2. Craft Distillery Reporting

As a Craft Distillery, you are required to regularly report information on your sales of your Product and your annual packaged product movement. Section 2 of this Appendix A describes in detail why, when, how and what you need to report.

2.1 Why Report

The LDB requires you as Craft Distillery to report information on your sales of your Product to your customers in British Columbia in order to fulfill the LDB's reporting and revenue collection responsibilities to the Provincial Government.

The LDB and the Provincial Government use the information you provide for monitoring, reporting, and financial control purposes.

2.2 When to Report

It is important that you report your sales in a timely manner. LDB reporting is done based on Financial (Fiscal) Year calendar which is different from a calendar year:

- Fiscal year begins on April 1 and ends on March 31 of the following year,
- Each fiscal year is comprised of 12 fiscal periods,
- Each fiscal period is based on 4-5 full weeks (except last period which always ends on March 31), and
- Each fiscal week spreads from Sunday through Saturday.

APPENDIX A

Craft Distillery – Reporting Requirements and Procedures

A current copy of the Financial (Fiscal) Year calendar can be found here: www.bcldb.com/direct-sales-web-reporting-user-guides.

You are required to report to the LDB on your sales-related activities, including if you did not process any sales or returns in any given month. The LDB must receive all your Sales Reports no later than 5 business days following the last day of each fiscal month.

If you plan to temporarily cease sales operations for a longer period, please email Data Management.

If you choose to report more frequently, for example weekly, or bi-weekly, please email us on your preference so we can update our schedules and know when to expect your next batch.

2.3 How to Report

Unless you have been authorized by the LDB to report in another manner, all reporting must be done online through the Internet via the LDB application used for reporting, namely the Direct Sales Web Reporting (DSWR).

DSWR is a very simple and intuitive application that uses a secured gateway built by the Provincial Government to grant business and individuals on-line access to various Provincial Government services.

LDB has developed very comprehensive user manuals for DSWR system that are available here: www.bcldb.com/direct-sales-web-reporting-user-guides

The application can be accessed from the following page: <http://www.bcldb.com/doing-business-ldb/direct-sales-reporting>

For any new Craft Distillery, shortly after the signing of your Agreement, you:

- will be assigned a LDB Store Number to use when reporting;
- will receive by email the full package of instructions on how to register, access, and use the DSWR application; and
- will be offered to schedule an optional web-based training session on using the DSWR reporting application.

Please note that you need to apply for a BCeID account through www.bceid.com to start reporting. The registration process may take up to 4 weeks, so please apply in advance to avoid delays.

If you are using a bookkeeping service to assist you with reporting and filing, you need to register your company as well as your representatives for BCeID first, and then grant your representatives permission to use online services on your behalf.

2.4 What to Report

2.4.1 General Rules on Sales Reporting

The rules listed below are applicable to reporting sales to all customer types. Rules specific to individual customer groups are listed in the sections 2.4.2 through 2.4.4. See Exhibit A for rules on pricing for each customer type.

3. Reporting of Packaged Product Movement

3.1 Purpose

As a Craft Distillery, you are required to report, on an annual basis, the movement of your Product in the province. The Packaged Product Movement Summary form is attached as Exhibit B to these Reporting Requirements and Procedures. This report is used by the LDB to ensure that your Product is duly accounted for. Any unaccounted Product will be dealt with further in the explanation below.

3.2 Report Completion

3.2.1 Generally

- **For the Period** – The annual period covered is April 1 to the following March 31. Enter the appropriate year. If your Distillery is a new manufacturer, the reporting period is from the date you began your operations to March 31.
- **Unit of Measure** – Litres.

3.2.2 For each Type of Product you report, you need to complete the following details:

Opening inventory – Packaged Product

Report the total litres of Product you store in any of your Warehouses (including any inventory stored in your Manufacturer On-site Store) and in any Warehouses which store your Product located in the province as at the beginning of business on April 1 (the start of your 12 month reporting period).

Total Additions

- **Total Packaged Production:** Report the total litres of Product produced at your Licensed Establishment during the 12 months ending March 31.
- **Packaged Product Returns:** Report the total litres of Product your customers returned to you. For the subsequent disposition of the returned Product, include these movements of your inventory in the appropriate columns of the Packaged Product Movement Summary (for example: include it in the “Breakage, defective, other write-offs” column if you destroyed it or include it in “Total shipments in BC” if you resold it.)
- **Total Additions:** This is a calculated total arrived at by adding– ‘Production’, ‘Product Returns’ and ‘Product produced by others’.

APPENDIX A

Craft Distillery – Reporting Requirements and Procedures

Total Product Available in BC

Total Packaged Product Shipments Out of BC

For example: You would include any shipments you made to another province in this total. Ensure you include the litres you physically shipped to other Canadian provinces during the 12 month reporting period which may not necessarily be the same as the volume you sold during the same time period (as is the case when Product is held in other provinces on a consigned basis).
- **Shipments Out of Canada** - Report the total litres of Product you physically shipped out of Canada during the 12 months covered by the Packaged Product Movement Summary.

Note: Any sales made in British Columbia to Ship Chandlers during the 12 months covered by the Packaged Product Movement Summary should be included in the 'Shipments Out of Canada' column.

Total Packaged Product Available in BC

This is calculated by deducting the volume reported as 'Shipments to Other Provinces' and 'Shipments Out of Canada' from the volume reported as 'Total Packaged Product Available'.

Total Shipments in BC (BC Sales)

Report the total litres of Product you physically shipped in BC including LDB distribution and Wholesale/ Hospitality customers (including any Product you used for sampling, donations or provided to employees) during the 12 months covered by the Packaged Product Movement Summary.

Total Packaged Product Deductions

Report any Product you "wrote off" either by destroying or through "breakage" or inventory count adjustments. You must complete the individual sub-column as appropriate.

- **LDB Exempted Deductions:** If an unusual event occurs at the manufacturing facility or its Warehouses which results in the loss of Product, such as a major forklift accident in the Warehouse or shelving collapsed, the LDB will consider exempting these deductions from mark-up. However, each exemption must be approved by the LDB in writing.
- **CRA Claimed Deductions:** If you reported any of the destroyed Product to the Canada Revenue Agency (CRA) to claim back the excise duties you paid, you must separately report the volume in this field.
- **Other Breakage, Adjustments & Write-offs:** Report the total litres of Other Breakage, Adjustments & Write-offs not included in Total Shipments in BC (BC Sales).
- **Total Deductions:** This is a calculated sum of LDB Exempt Deductions, CRA Claimed Deductions, and Other Breakage, Adjustments & Write-offs.

Closing Inventory

- **Calculated:** This is calculated by deducting the 'Total shipments in BC (BC Sales)' and 'Total Other Deductions' from the 'Total Product Available in BC' column of the Packaged Product Movement Summary.
- **Physical:** You are required to physically count the inventory of packaged Product on March 31 of each year you have on hand in your Licensed Establishment including your

Manufacturer On-site Store. The inventory that you physically counted (converted to litres) should be reported in the 'Closing Inventory – Physical' column of the Product Movement Summary report.

Ensure you retain the inventory count sheets which record the inventory physically counted on March 31 along with the Craft Distillery's inventory records.

Difference

This is calculated by deducting the 'Closing Inventory - Calculated' total from the 'Closing Inventory - Physical' total reported on the Packaged Product Movement Summary.

LDB Shrinkage Allowance Calculation

The shrinkage allowance takes into account an acceptable volume of Product that may be consumed or written-off in BC due to normal manufacturing and warehousing activities. By allowing this, a manufacturer does not have to fully document each instance of breakage/destruction which may occur. The rate depends on the annual production volume of the manufacturer. The current rate of the LDB shrinkage allowance is 0.50% of 'Total Calculated Packaged Product Moved in BC' for the annual production.

Self-Assessment Calculation

This portion of the Packaged Product Movement Summary report calculates the 'Total Deductions Subject to LDB Mark-up'. If the amount is positive, you owe the LDB mark-up because your non-sale inventory deductions exceed the shrinkage allowance. The LDB will invoice you to recover the mark-up value based on the LDB Established Retail Price of the excess volume of the unaccounted movement of inventory.

Other

With the submission of your Packaged Product Movement Summary report, you must provide the LDB a listing of all the Warehouses located in British Columbia where you stored any of your Product as at March 31.

3.3 Report Submission

The completed Packaged Product Movement Summary form and your listing of Warehouse locations must be sent to the LDB by June 30 to the attention of following address:

5. Payment for Beverage Container Deposits and Container Recycling Fees to LDB

In accordance with the provincial Ministry of Environment's *Recycling Regulation*, most containers which hold "ready-to-serve" beverages are subject to a refundable container deposit. The *Recycling Regulation* also requires manufacturers or their agents to be part of an approved stewardship plan that ensures containers are collected and recycled.

In British Columbia, there are two stewardship agencies that manage beverage container stewardship plans on behalf of the industry. Encorp Pacific Ltd. ("Encorp") is the stewardship agency for all non-refillable containers except cans. Brewers Distributor Limited ("BDL") is the stewardship agency for cans and refillable bottles. Each of these two agencies operates a collection and recycling system and determines the amount of the container recycling fees ("CRFs") that are required to pay for the costs of their systems. In the normal course of business, Encorp and BDL review the CRFs and make adjustments as necessary.

In order to streamline the administration of the two stewardship plans, the LDB has agreed to consolidate the collection of container deposits and CRFs on Product sales and remit them to Encorp and BDL for funding of their stewardship plans. This relieves manufacturers from the burden of making individual payments to the two stewardship agencies. This does not apply to refillable bottles as BDL collects container deposits and CRFs directly from the manufacturers of these containers.

When you sell beverage alcohol, you must collect CRFs (included in the LDB Established Retail Price), and container deposits on your packaged Product sales.

Please see the Container Deposit Schedule currently in effect: www.bclddb.com/direct-sales-web-reporting-user-guides. Encorp and BDL change the CRF fees from time to time and when they do, the LDB will update the schedule with the new rates.

In order to provide these funds to Encorp and/or BDL, each month the **LDB will invoice your Licensed Establishment** for the CRFs (plus applicable taxes) and container deposits based on your Sales Reports.

You are **required by this Agreement to pay the invoices** in a timely manner according to the payment terms stated on the LDB invoice. Failure to do so will result in suspension or termination of your Agreement.

5. If the inspection or audit referred to above discloses a breach of the Agreement, you must pay the costs and expenses of the inspection or audit and any payments assessed as due and owing, as determined by the LDB using reasonable audit standards.
6. Please note that your Craft Distillery is solely responsible for collection and remittance of all provincial and federal taxes, levies and fees imposed by the current provincial, municipal, federal or other regulations unless the terms of the Agreement state otherwise.

Appendix D

Overview of Reporting Requirements and Procedures on a Transitioning Craft Distillery (with Annual Production level from 50,001 to 100,001)

You will be required to report your Annual Production volume of the Product for each calendar year (January 1 through December 31) by January 31 of following year. Once your Licensed Establishment's Annual Production of Product exceeds 50,000 litres per year but remains under 100,001 litres per year, your distillery will be a Transitioning Craft Distillery. Reported sales will be a subject to a mark-up, based on your Annual Production category, effective on April 1 immediately following the report of Annual Production. If your Licensed Establishment is under common ownership and/or common management with other Licensed Establishments with Manufacturer Licences, the combined production of all distilleries will be used to determine the mark-up rate. Your Licensed Establishment has to continue meeting all conditions applicable to the Craft Distillery status in order to qualify for mark-up exemption or reduced mark-up on sales of your Products.

Please note the following major changes in your sales process and reporting when your Licensed Establishment ceases to qualify to be fully mark-up exempt but still qualifies as a Transitioning Craft Distillery:

1. You must collect the full payment, including the LDB mark-up, on sales to your Wholesale Customers and Hospitality Customers;
2. You may sell to Special Event Permittees at the LDB Establish Retail Price through your Manufacturer On-site Store;
3. You must remit all proceeds of your weekly sales to Wholesale Customers and Hospitality Customers, including container deposit amounts, into your Pre-Authorized Debit account;
4. LDB will pay you the duty-paid cost of the Product on all reported sales.

LDB will reimburse you any amount owing to you which reflects the difference between the mark-up deposited by you on all reported sales and the mark-up due to the LDB. The details of the reporting requirements will be provided to you at the time you qualify as a Transitioning Craft Distillery, or at any time earlier at your request.

Mark-up rates in effect as of April 1, 2015.

Mark-up Rates for Craft Distilleries

Craft Distillery Annual Production (litres)	LDB Mark-up for Craft Distilleries
Up to 50,000	0%
50,001 - 60,000	21%
60,001 - 70,000	41%
70,001 - 80,000	62%
80,001 - 90,000	83%
90,001 - 100,000	103%

If Annual Production is over 100,000 litres then you would be a Commercial Distillery and the mark-up would be 124%.
